Our school strategies are showing substantial progress toward our targets

After reviewing our Great Results Guarantee agreement, it is clear that we have made substantial progress toward targeted student outcomes. We will continue to focus on maximising the benefits of this funding for our students, and adjust our strategies as needed to ensure every student succeeds.

Strategies implemented include:

- Providing high level targeted intervention for students identified as at risk of not meeting the National Minimum Standards in the 2015/2016 NAPLAN Test. This involved:
  - Building teacher capability in explicit teaching through coaching, feedback and classroom walk-throughs.
  - Developing evidence based learning support plans for identified students.
  - Increasing teacher aide time to support individual support plans.
  - Developing a reading and writing program for identified students to replace their LOTE Program.
  - Structuring likeability classes and providing targeted teaching strategies to support identified students to meet NMS and to reach the U2B.

- Funding a Support Teacher Literacy & Numeracy (STLN) who delivered:
  - Training for all teachers in literacy and numeracy development
  - Support for teachers to embed literacy practices across the curriculum
  - In-class support for students.
