

# SCHOOL EQUIPMENT LIST FOR 2018 - YEAR 11

**All classes start school on Monday 22<sup>nd</sup> January 2018.**

This information is provided so that students can successfully undertake their studies. Lack of the correct equipment can seriously hamper studies which will in turn be reflected in lower student performance and results.

Please ensure that all equipment is **CLEARLY NAMED** and have some private means of identification placed on them so that losses can be traced.

SUBJECT	EQUIPMENT REQUIREMENTS

**Information about – Bring Your Own Device (BYOX) on the next page.**

# Important IT Update

The Education Queensland preferred model for further integration of Information & Communication Technology (ICT) into the curriculum is Bring Your Own Device (BYOX).

This means that parents are responsible for the provision of personal laptops for their student to use. Class sets of recycled laptops are being phased out as they become unserviceable and will not be replaced.

Mossman State High School have purchased a bridge point connection portal to facilitate the connection of these personal devices to the school network. We would strongly recommend the following minimum specifications for general school use.

## Mossman State High School provides:

	Filtered Internet	H Drive	G Drive	W Drive	Printers
Windows	✓	✓	✓	✓	✓
Mac	✓	✓	✓	✓	X

## Recommended Specifications:

- Minimum battery life of 6 hours to cover a school day. NB There will be no charging facilities at school.
- Computer with a minimum of 4GB RAM.
- Protective case.
- Pointing device (mouse or stylus), touchpad on laptops is ok.
- Onsite warranty [Next Business Day (NBD) Onsite warranty is strongly recommended if possible].
- Accidental Damage Protection Insurance (ADP) preferably from the manufacturer, if done through a third party, check the repair timeframe, next business day if possible is recommended. - *From our experience with school devices, we consider this essential.*

Enrolment in subjects such as Photography, Film, TV & New Media, Graphics/Design and Digital Technologies would require a higher specification machine as below to run the higher end software.

- i7 processor
- 8GB RAM or more
- Dedicated graphics card
- 500GB Hard drive

In addition, connection to the network will only be possible for machines with a functioning antivirus program installed, a signed BYOX Agreement Charter and an annual connection fee of \$30.

Microsoft Office is a free download to students from [www.education.qld.gov.au/office2016](http://www.education.qld.gov.au/office2016)  
Any anti-virus software, free or paid, is acceptable.

To assist parents to purchase appropriate student devices, Dell, Acer, and HP have set up purchasing portals.
