

SCHOOL EQUIPMENT LIST

2025 – YEAR 7

All classes commence on Tuesday, 28th January 2025

This information is provided so students can successfully undertake their studies. Lack of correct equipment can seriously hamper studies which will in turn be reflected in lower student performance and results. In some cases (e.g., practical subjects) it is not possible to cover the course requirements without the proper equipment.

Please ensure that all equipment is **CLEARLY NAMED** and have some private means of identification placed on them so that losses can be traced. It is required that books be kept in a presentable condition. Parents are encouraged to regularly check student's books for neatness and completion of tasks. Writing should be neat and legible, lines should be ruled, and there should be no scribbling or graffiti on pages.

GENERAL EQUIPMENT REQUIREMENTS – will be used for ALL subject areas	
Ruled Exercise Books	Students <u>MUST</u> purchase individual exercise books for subjects rather than one book/folder with dividers.

Important IT Information

The Education Queensland preferred model for further integration of Information & Communication Technology (ICT) into the curriculum is Bring Your Own Device (BYOx).

This means that parents are responsible for the provision of personal laptops for their student to use. Class sets of recycled laptops are being phased out as they become unserviceable and will not be replaced.

Mossman State High School has access to a free InTune connection portal to facilitate the connection of these personal devices to the school network. We would strongly recommend the following minimum specifications for general school use.

Mossman State High School provides:

	Filtered Internet	H Drive	G Drive	W Drive	Printers
Windows	✓	✓	✓	✓	✓
Mac	✓	✓	✓	✓	X

NOTE - Currently laptops with Windows 11 with a Snapdragon CPU may have difficulties printing to school printers controlled by Papercut. Mossman State High School uses Papercut.

Accessories:	Headset with microphone – health considerations. Over ear may be kinder on ears. Protective Sleeve/Case Separate mouse.		
Onsite warranty Accidental damage	Preferably from manufacturer but if from third party check timeframe and return conditions. Our experience suggests this is essential.		

In addition, connection to the network will only be possible for machines with a functioning antivirus program installed and a signed BYOx Agreement. There is no fee to connect a BYO device to the school network. Windows Defender is an acceptable functioning antivirus program that is freely available in Windows 10 and 11.

Microsoft Office is a free download to students from
